

## IS YOUR ART AND COLLECTABLES CORRECTLY INSURED?

Artinsure is a specialist underwriting manager with over 25 years of experience and focuses on the insurance needs of the art, antiques, collectables and valuables world. Together with their specialised products and professional claims service, they offer an international network of valuers, restorers and conservators.

Artinsure offers claims expertise on collectables and valuables which are very unique. Their expertise will provide you with a proper valuation and the cover you need. Without this, you may find yourselves underinsured or without any cover.

They put you back in the exact financial position you were in prior to the loss by working on the actual value of the item. They know when an item cannot be replaced, or when restoration impairs value and they know that the loss of an item in a set does not proportionally reduce the value. You as the client have the right to decide on indemnity and declare the item a total loss.

Since their launch in 2007 they have met all claims fully, successfully and satisfactorily

They cover the following:

Jewellery	Clocks
Metalware	Militaria
Numismatics	Books
Objets d'art	Objects of virtue
Musical instruments	Carpets
Porcelain, pottery, ceramics, glass, jade, etc.	Paintings, sketches, prints
Pictures	Antique and period furniture
Gold, Silver and precious metals	Sporting memorabilia
Philatelic	Scientific instruments
Statues and sculptures	Political memorabilia

Artinsure is the preferred insurance provider of the Everard Read Gallery, The Goodman Gallery, Michael Stevenson, The Johannesburg Art Fair, Strauss & Co, Stephan Welz & Co and The Iziko Museum, to name a few respected collectors, museums, dealers, auctioneers, restorers, valuers, galleries, shippers and exhibitions that make use of their products.

Should you have any questions regarding the above please feel free to contact Vaughan Hansen on 0861-111-FPM (376) or send him an e-mail at [vaughan@fpm.co.za](mailto:vaughan@fpm.co.za) for further assistance.
